

A quick way to reduce operating costs

FPL's Online Business Energy Evaluation

A powerful energy-saving tool

Reducing operating costs is crucial for small businesses, and an FPL Online Business Energy Evaluation provides a great solution. It's a **fast, free** way to learn how to manage your electricity and **save money**. Getting started is simple. Here's how:

- » Step 1: Go to www.FPL.com/OBEE
- » Step 2: Click on Start your Free Online Evaluation Now!
- » Step 3: Log on or register

Logging on or registering is important because this will identify your account and tell you if the Online Business Energy Evaluation is right for you. It links your business account history to your evaluation so you can get results specifically for your company. It also qualifies you for secure access to products and services that can benefit your business.

Business owner cuts energy costs after taking online evaluation

H. Thorn, president and owner of Restaurant Supplier International Purchasing Associates, took the first step toward controlling energy costs by taking FPL's Online Business Energy Evaluation. "I took the evaluation and started following the tips," Mr. Thorn said. "I began turning off all computer monitors and turning the thermostat up at the end of the work day. The best part is I was able to lower my energy bill by about \$30 a month."

OBEE puts you in control today!

The Online Business Energy Evaluation is available 24 hours a day, seven days a week. You can complete the survey in minutes at your convenience. There's no need to enter your billing data because we already have it. And the questions are easy to understand, so you don't have to be an energy expert.

The evaluation provides immediate, customized results and recommendations, which can lead to meaningful savings. You'll also learn about FPL incentives for energy upgrades that can result in even more savings.

Your energy analysis and results are saved, so you can access or update your answers at a later date if you make a change to your business operations, such as upgrading the air-conditioning system or changing business hours.
