FOR YOUR HOME & FAMILY

Win a **\$5,000** home energy makeover

Change the current way you use energy and make your bill even lower with our free FPL Online Home Energy Survey. Just visit **FPL.com/PetSweeps** to get a personalized energy-savings plan, including ways to save up to \$250 a year. By making saving energy your pet project this month and completing your survey by Oct. 31, you'll be entered to win a \$5,000 home energy makeover.

Did you know?

For us, doing what it takes to keep the lights on means having specially trained workers who can repair power lines, while they're live, carrying up to 500,000 volts of electricity. Visit FPL.com/specialteam to see how they help us keep the lights on at your home. Remember, stay safe by always keeping far away from power lines.

Tools to help you save

We offer several programs that can help you save energy and money. Here are just a few of those services, which are available to you by visiting FPL.com/inhome or calling 1-800-DIAL-FPL (1-800-342-5375):

- » **Walk-through audit:** In this free evaluation, our energy expert will visit your home, identifying energy-saving opportunities and rebates available to improve your home's energy efficiency.
- » **Computer-assisted audit:** In a more detailed evaluation costing \$15, we'll also estimate potential savings, installation costs and payback period of each recommendation.

You may also call 1-800-DIAL-FPL to schedule a **Building Energy Rating System**, or BERS, survey. This program rates your home according to the current Florida energy-efficiency code requirements for new home construction and may help you qualify for improved mortgage options or increase your home's resale value. New or existing homes can apply for a Class 1 or 2 rating survey, which involves an on-site inspection. The cost for homes up to 2,000 square feet* is \$480, or \$555 with an air-conditioning duct leakage test, which includes one handler. Add \$35 for each additional handler. At a cost of \$75, the Class 3 rating option is for new construction only and is based solely on site plans and construction documents.

**Note: For Class 1 and 2 surveys, there is an additional charge of \$0.08 per square foot for homes greater than 2,000 square feet, or \$0.03 per square foot for a Class 3 survey.*

Ask the Energy Expert

Q What uses the least amount of energy when cooking: a microwave, electric oven or slow cooker?

- Peggy, via FPLblog.com

A A microwave oven is typically your best cooking option if you're looking to save energy and time.

Visit FPLblog.com/microwave to see how different cooking appliances compare, or submit a question to our energy experts.

Reduce your chances of identity theft

Paper bills are a leading cause of identity theft. Sign up today for FPL E-Mail Bill® - the most secure way to receive your bill.
