

EnergyNews
FOR YOUR HOME & FAMILY

Have you
tried your
Energy
Dashboard?

See how much energy you're using, find new ways to save

Families, like yours, are using their personalized online Energy Dashboard to make real changes in how they use energy. It's paying off for Kevin Linn. His family's bill is now \$100 lower per month than some of his neighbors. "When I could see our actual usage per hour, that's when I altered my behavior," said Linn. At first, he needed to urge his wife and kids to turn lights off and make other changes. But now they're on board. The family also swapped out light bulbs, upgraded the air conditioner and replaced the pool pump. See how much energy you're using and find new ways to save, just like the Linn family: [» FPL.com/energydashboard](http://FPL.com/energydashboard)

Kevin Linn, South Florida

Your online bill upgrade is almost here

Soon you'll be able to navigate among payment options, account history, energy-use comparisons and more all from a new, more helpful online bill. Get a sneak peek: [» FPL.com/upgrade](http://FPL.com/upgrade)

Protecting Florida's natural treasures

When manatees migrate to Florida's warmer waters during the winter months, they particularly love the warm-water outflows from our power plants. Our newest clean energy center in Riviera Beach will continue to provide this winter safe haven. Plus, we'll also ensure future generations can learn about these endangered species through a new manatee education center scheduled to open to the public by the end of 2015. Learn more: [» FPL.com/riviera](http://FPL.com/riviera)

Evacuation help for customers in need

When a severe storm threatens, help is available to ensure those with special needs stay safe. Your local government can help assist with evacuations. Make sure to register with your local emergency management office by checking your phone directory under "county government."

We offer a choice of meter

Smart meters provide important customer benefits, and that's why they're now the standard meter for FPL customers. However, eligible customers who prefer not to have the smart meter can choose to use a non-standard meter (the older technology replaced by the smart meter). Through a new tariff*, customers must pay an enrollment fee of \$95 and a monthly surcharge of \$13 to cover the cost of the non-standard service. Learn more:

[» FPL.com/meteroption](http://FPL.com/meteroption)

**The tariff has been approved but is under review by the Florida Public Service Commission.*

Ask the Energy Expert

Q What can I do to save money on my bill?

- Loris S. from Margate

A Enrolling in our On Call® program is one of the easiest ways to save. Learn more about how you can get money back on your electric bill:

Did you know?

We use mostly American-produced clean fuel sources to generate the electricity you use to power your home.

Sources of electricity generation for the 12 months that ended on Feb. 28, 2014

Safety check your home

Electrical codes change over the years. It is important to have your home's electrical system inspected by a licensed electrician every 20 years to ensure that it's safe, running properly and up to code. Also, remember to keep a certified and operable fire extinguisher on hand. Get more safety tips:
